DRAW BAMBI IN 7 STEPS

The following should be done in pencil.

Step 1. Draw a very simple oval, then add a center line vertically and horizontally to establish Bambi's eye-line. Establish the main direction of Bambi's body by gently drawing a long, loose "S" shape.

Step 2. Draw a small oval to establish Bambi's chest. Draw another oval horizontally, to establish the rear of his body.

Step 3. Add Bambi's legs. As a young fawn, he has long, skinny legs. Follow the "S" line to establish Bambi's hind legs which will reach out in an upside-down "V" shape.

Step 4. Indicate where Bambi's ears are by drawing a sharp oval and a triangle shape. Add Bambi's tail in the shape of a small banana.

Step 5. Now add detail to Bambi's face by defining his small nose, his muzzle and his eyes.

Step 6. Refine Bambi's ears. Add details to his eyes. Establish Bambi's chest. Add a bit of fur all around.

Step 7. Finally, add the details which will complete Bambi such as defining his spots and fluff-up his fur a bit. Don't forget to add his hooves, then shade in his eyes and darken his nose.
